

**INCREASED STRENGTH**

# STRUCTURAL DECKING

REINFORCED HDPE LUMBER

## AVIENT SOLUTION

Polystrand™ unidirectional thermoplastic composite tape

## WHY AVIENT?

- Added strength to HDPE deck boards to enable industry-leading load capacity and joist spacing spans
- Extended product life with superior adhesion of PE tape via co-extrusion
- Improved supply reliability with product manufactured in Englewood, CO

## KEY REQUIREMENTS

- Reinforcement to improve strength of HDPE decking
- Composite tape compatible with HDPE for strong adhesion
- Low thermal expansion
- Domestic (U.S.) supply and manufacturing
