

# LEADING PIPE OEM PIPE AND CONDUIT

## AVIENT SOLUTION

ColorMatrix™ Liquid Colorant  
and Dosing Equipment

## WHY AVIENT?

- Automated a raw material handling solution that included no lifting, cutting, or tearing of raw material packaging
- Eliminated fine TiO<sub>2</sub> and pigment-related particles, providing cleaner air in manufacturing areas
- Provided a safe and sustainable environment by helping reduce workplace dust exposure
- Enabled employee redeployment to other activities, optimizing use of labor

## KEY REQUIREMENTS

- Decrease ergonomic stressors for employees (i.e., continuous lifting of 55 lbs. bags) and eliminate transport of raw material up stairs or on to mezzanine to reduce potential for injuries during material handling
- Provide a dust-free raw material handling and manufacturing environment
- Alleviate employee health concerns by providing a cleaner production floor and lower levels of airborne TiO<sub>2</sub> dust
- Maintain an OSHA compliant facility
