

# **POWER CABLE PRODUCER CABLE INSULATION**

## **AVIENT SOLUTION**

ECCOH™ XL Cross-Linkable Solutions 8054

## **WHY AVIENT?**

- Offered Sioplas technology for cross-linking providing ambient curing
- Delivered new cable design possibilities for low-voltage cables while offering easy processing
- Processed more efficiently than market-established elastomeric technology which is processed using a CV line
- Provided cable insulation that passes the hot set test at 250°C

## **LEARN MORE**

## **KEY REQUIREMENTS**

- Easy to process
- To pass CPR fire test
- Low smoke and toxicity values on smoke test
- Possibilities for low-voltage cables
- Cable insulation that passed G18 of the CEI EN 50363-0: 2015 standard
