# SAFETY DATA SHEET

### LIB0411 LIBRA CLEAR GEL PART B

| Section 1. Identification            |       |   |
|--------------------------------------|-------|---|
|                                      |       |   |
| GHS product identifier               | :     | LIB0411 LIBRA CLEAR GEL PART B                                    |
| Chemical name                        | :     | Mixture   |
| CAS number                           | :     | Mixture   |
| Other means of identification        | :     | FO00015919  |
| Product type                         | :     | liquid  |
|                                      |       |   |
| Relevant identified uses of the subs | tance | or mixture and uses advised against                               |
| Product use                          | :     | Industrial applications. Plastics.                                |
|                                      |       |   |
| Supplier's details                   | :     | AVIENT CORPORATION  |
|                                      |       | 33587 Walker Road, Avon Lake, OH 44012                            |
|                                      |       |   |
|                                      |       | 1 (440) 930-1000 or 1 (844) 4AVIENT                               |
|                                      |       |   |
| Emergency telephone number           | :     | CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or |
| (with hours of operation)            |       | accident).  |

# Section 2. Hazards identification

This mixture has not been evaluated as a whole for health effects. Information provided on health effects of this product is based on the individual components. However, some vapors or contaminants may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure. See sections 8 and 11 for special precautions. Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

| OSHA/HCS status                            | : | This material is considered hazardous by the OSHA Hazard<br>Communication Standard (29 CFR 1910.1200). |
|--|---|--|
| Classification of the substance or mixture | : | EYE IRRITATION - Category 2A   |
| GHS label elements                         |   |  |

# LIB0411 LIBRA CLEAR GEL PART B

# Section 3. Composition/information on ingredients

| Substance/mixture             | : | Mixture    |
|-------------------------------|---|------------|
| Chemical name                 | : | Mixture    |
| Other means of identification | : | FO00015919 |

CAS number/other identifiers

| Ingredient name                            | %            | CAS number |
|--|--------------|------------|
| 2,3-Epoxy propoxy propyltrimethoxysilicane | >= 1 - < 3   | 2530-83-8  |
| Ethyl benzene                              | > 0 - <= 0.3 | 100-41-4   |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# Section 4. First aid measures

# LIB0411 LIBRA CLEAR GEL PART B

Version Number 1.7 Revision Date 01/31/2025

# **ÄVIENT**

Page 3 of 16 Print Date 04/11/2025

#### **Description of necessary first aid measures**

| Eye contact  | : | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.   |
|--------------|---|---|
| Inhalation   | : | Remove victim to fresh air and keep at rest in a position comfortable<br>for breathing. If not breathing, if breathing is irregular or if respiratory<br>arrest occurs, provide artificial respiration or oxygen by trained<br>personnel. It may be dangerous to the person providing aid to give<br>mouth-to-mouth resuscitation. Get medical attention if adverse health<br>effects persist or are severe. If unconscious, place in recovery position<br>and get medical attention immediately. Maintain an open airway.<br>Loosen tight clothing such as a collar, tie, belt or waistband.   |
| Skin contact | : | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.   |
| Ingestion    | : | Wash out mouth with water. Remove dentures if any. If material has<br>been swallowed and the exposed person is conscious, give small<br>quantities of water to drink. Stop if the exposed person feels sick as<br>vomiting may be dangerous. Do not induce vomiting unless directed<br>to do so by medical personnel. If vomiting occurs, the head should be<br>kept low so that vomit does not enter the lungs. Get medical attention<br>if adverse health effects persist or are severe. Never give anything by<br>mouth to an unconscious person. If unconscious, place in recovery<br>position and get medical attention immediately. Maintain an open<br>airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects                         |    |   |
|--|----|---|
| Eye contact<br>Inhalation<br>Skin contact<br>Ingestion | :: | Causes serious eye irritation.<br>No known significant effects or critical hazards.<br>No known significant effects or critical hazards.<br>No known significant effects or critical hazards. |
| Over-exposure signs/symptoms                           |    |   |
| Eye contact  | :  | Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
| Inhalation   | :  | No specific data.   |
| Skin contact   | :  | No specific data.   |
| Ingestion  | :  | No specific data.   |

# LIB0411 LIBRA CLEAR GEL PART B

Version Number 1.7 Revision Date 01/31/2025

# **ÀVIENT**

Page 4 of 16 Print Date 04/11/2025

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician<br>Specific treatments | : | Treat symptomatically. Contact poison treatment specialist<br>immediately if large quantities have been ingested or inhaled.<br>No specific treatment.                         |
|---|---|--|
| Protection of first-aiders                | : | No action shall be taken involving any personal risk or without<br>suitable training. It may be dangerous to the person providing aid to<br>give mouth-to-mouth resuscitation. |

See toxicological information (Section 11)

### **Section 5. Fire-fighting measures**

#### Extinguishing media

| Suitable extinguishing media<br>Unsuitable extinguishing media | : | In case of fire, use water spray (fog), foam, dry chemical or CO <sub>2</sub> . None known.   |
|--|---|---|
| Specific hazards arising from the chemical                     | : | In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products                       | : | Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>metal oxide/oxides  |
| Special protective actions for fire-<br>fighters               | : | Promptly isolate the scene by removing all persons from the vicinity<br>of the incident if there is a fire. No action shall be taken involving any<br>personal risk or without suitable training. |
| Special protective equipment for fire-fighters                 | : | Fire-fighters should wear appropriate protective equipment and self-<br>contained breathing apparatus (SCBA) with a full face-piece operated<br>in positive pressure mode.                        |

# Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | : | No action shall be taken involving any personal risk or without<br>suitable training. Evacuate surrounding areas. Keep unnecessary and<br>unprotected personnel from entering. Do not touch or walk through<br>spilled material. Avoid breathing vapor or mist. Provide adequate   |
|-----------------------------|---|--|
| For emergency responders    | : | ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.<br>If specialized clothing is required to deal with the spillage, take note<br>of any information in Section 8 on suitable and unsuitable materials. |

# **ÀVIENT**

# LIB0411 LIBRA CLEAR GEL PART B

| Version Number       | er 1.7     |
|----------------------|------------|
| <b>Revision Date</b> | 01/31/2025 |

#### Page 5 of 16 Print Date 04/11/2025

|                                     |       | See also the information in "For non-emergency personnel".  |
|-------------------------------------|-------|---|
| Environmental precautions           | :     | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for containme | nt ar | nd cleaning up  |
| Small spill                         | :     | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                         | :     | Stop leak if without risk. Move containers from spill area. Approach<br>release from upwind. Prevent entry into sewers, water courses,<br>basements or confined areas. Wash spillages into an effluent treatment<br>plant or proceed as follows. Contain and collect spillage with non-<br>combustible, absorbent material e.g. sand, earth, vermiculite or<br>diatomaceous earth and place in container for disposal according to<br>local regulations (see Section 13). Dispose of via a licensed waste<br>disposal contractor. Contaminated absorbent material may pose the<br>same hazard as the spilled product. Note: see Section 1 for emergency<br>contact information and Section 13 for waste disposal. |

# Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures   | : | Put on appropriate personal protective equipment (see Section 8). Do<br>not ingest. Avoid contact with eyes, skin and clothing. Avoid<br>breathing vapor or mist. Keep in the original container or an approved<br>alternative made from a compatible material, kept tightly closed when<br>not in use. Empty containers retain product residue and can be<br>hazardous. Do not reuse container. |
|---|---|--|
| Advice on general occupational<br>hygiene                       | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any incompatibilities | : | Store in accordance with local regulations. Store in original container<br>protected from direct sunlight in a dry, cool and well-ventilated area,<br>away from incompatible materials (see Section 10) and food and<br>drink. Keep container tightly closed and sealed until ready for use.<br>Containers that have been opened must be carefully resealed and kept                             |

# LIB0411 LIBRA CLEAR GEL PART B

Version Number 1.7 Revision Date 01/31/2025

Page 6 of 16 Print Date 04/11/2025

upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

# Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name                            | Exposure limits  |  |
|--|--|--|
| 2,3-Epoxy propoxy propyltrimethoxysilicane | None.  |  |
| Ethyl benzene                              | OSHA PEL 1989 (1989-03-01)<br>TWA 435 mg/m3 100 ppm<br>STEL 545 mg/m3 125 ppm<br>OSHA PEL (1993-06-30)<br>TWA 435 mg/m3 100 ppm<br>NIOSH REL (1994-06-01)<br>TWA 435 mg/m3 100 ppm<br>STEL 545 mg/m3 125 ppm<br>ACGIH TLV (2010-12-06) Ototoxicant<br>TWA 20 ppm |  |

| Appropriate engineering controls | : | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.   |
|----------------------------------|---|--|
| Environmental exposure controls  | : | Emissions from ventilation or work process equipment should be<br>checked to ensure they comply with the requirements of<br>environmental protection legislation. In some cases, fume scrubbers,<br>filters or engineering modifications to the process equipment will be<br>necessary to reduce emissions to acceptable levels.   |
| Individual protection measures   |   |  |
| Hygiene measures                 | : | Wash hands, forearms and face thoroughly after handling chemical<br>products, before eating, smoking and using the lavatory and at the end<br>of the working period. Appropriate techniques should be used to<br>remove potentially contaminated clothing. Wash contaminated<br>clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location. |
| Eye/face protection              | : | Safety eyewear complying with an approved standard should be used<br>when a risk assessment indicates this is necessary to avoid exposure to<br>liquid splashes, mists, gases or dusts. If contact is possible, the  |
|                                  |   | 0/40   |

# LIB0411 LIBRA CLEAR GEL PART B

Page 7 of 16 Print Date 04/11/2025

 following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

 Skin protection

 Hand protection

 :
 Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

| Body protection               | : Personal protective equipment for the body should be selected based   |
|-------------------------------|---|
|                               | on the task being performed and the risks involved and should be  |
|                               | approved by a specialist before handling this product.  |
| Other skin protection         | : Appropriate footwear and any additional skin protection measures  |
|                               | should be selected based on the task being performed and the risks  |
|                               | involved and should be approved by a specialist before handling this product.   |
| <b>Respiratory protection</b> | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be |
|                               | used according to a respiratory protection program to ensure proper   |
|                               | fitting, training, and other important aspects of use.  |

# Section 9. Physical and chemical properties

|--|---|---|
| Other adverse effects                  | : | No known significant effects or critical hazards. |

# Section 13. Disposal considerations

**Disposal methods** The generation of waste should be avoided or minimized wherever • possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
